Expulsion of Jews from
Mainz

Late 1200s (printed 1473)

GESTA ROMANORUM

(Deeds of the Romans)

Collection of medieval moralistic tales, written late 1200s, printed 1473, recounting valiant deeds supposedly carried out under various Roman emperors: influenced later writers, including Chaucer and Shakespeare.

1473-1543

Polish mathematician Nicolaus
Koppernigh (1473-1543), who latinized
his name as Copernicus, Copernicus took
the vague speculation of Pythagoras that
the center was the sun.

1473AD - Built

SISTINE CHAPEL

The Sistine Chapel in the VATICAN was named after Pope SIXTUS IV, who had it built. It is the private Chapel of the Pope, and also a famous treasury of Art, for the finest Italian artists painted its walls, and MICHELANGELO's picture story of scenes from the Old Testament covers its entire ceiling.
